

Quality Notes 681000 Fire-Rated Door Shims – 01 03-05-2014

## Fire-rated doors require Steel Shims Only

## Section 6.4.3.4 Shimming

"When required to meet the clearances, shimming of hinges shall be permitted using steel shims."

It is NOT acceptable to use cardboard, wood strips, or plastic shims when shimming <u>any</u> fire-rated door assemblies.
